# **OSPREY CH7500 TOP MOUNT CONTROL** (LEVER ON RIGHT)

### APPLICATIONS

Dual-function control one lever controls throttle and shift. For nearly any engine

## **FEATURES**

- All controls include start in gear protection
- Designed for use with both universal and OEM shift and throttle cable connections
- Suitable for most single engine/single station combinations
- Dual action lever (throttle and shift control on one handle)
- Optional neutral interlock available
- Trim, Tilt, options available
- Drag adjustment on all models
- Easy installation and set up
- Neutral "warm up" button for throttle only operation
- Made in the USA

Issue Date - Oct 2013 Issue Number - mcda4

The ergonomics and features of our CH7500 controls are advanced beyond those of any other control on the market. A shapely, balanced handle design provides an incredibly smooth yet positive feel, throttle warm-up and start-in-gear protection features are standard on all CH7500 models, with neutral interlock and power trim/tilt offered as an option.

In addition the cosmetics of these controls can be configured to many tastes. CH7500 controls are suitable for use with both universal type 3300/33c or OEM type control cables without the need for additional adaptors.

NOTES: The handle is on the right side of the dome. For left side handle see CH7600 series.
